Washington, DC 20554

Dear The Federal Communications Commission,

I do not want to pay more for my telephone service! I urge you to reject a flat fee proposal that would change how contributions are made to the Universal Service Fund. I am concerned that this proposal could make my current service unaffordable.

Under the flat fee proposal you are considering, people who make few long distance calls would pay the same as people or businesses that make many calls. In other words, low-volume and primarily residential customers would bear the same universal service fund burden as a high-volume residential or business customers. This is unfair!

I use my wireless phone for safety, security and convenience. I don't want to lose these benefits so that big businesses can pay less than their fair share. I urge you to reject the proposal to move the USF collection system to a flat-fee. Stop the insanity already! First you violate our right to free speech by over-sensoring Howard Stern, now you are taking my rights away once again when it comes to cell phone tax! I chose a tracfone prepaid because other service providers tax the heck out of you, and left me no choice to only afford a prepaid plan, and there is the FCC once again, trying to control MY LIFE! Go stick it!

Keep the USF Fair!

Sincerely,

Jenifer Green
